PROFILE

I create websites that feel alive while keeping it modernized. Using React for structure and Framer Motion for fluid animations, specifically for seamless transitions, micro-interactions, and scroll-driven animations that elevate user engagement.

SKILLS

React.js • HTML & CSS • TailwindCSS • Java • Javascript • Git

PROFESSIONAL EXPERIENCE

Episcope-AI

03/2024 – present | The Hague, Netherlands

Jr. Frontend Developer

- Developed a responsive web application from a Figma design, ensuring pixel-perfect implementation and a seamless user experience.
- Built an interactive camera management system, allowing users to add, edit, and delete cameras with an intuitive UI.
- Translated design mockups into clean, maintainable code using MUI components & React.

EDUCATION

University of York

10/2024 – present | Athens, Greece

BSc in Computer Science

Athens/Tech

10/2024 – present | Athens, Greece

BSc in Computer Science
